

Pandemia Fighters

Projenin Amacı

With this project, it is aimed to identify the health, social and environmental problems encountered during the pandemic and to offer solutions by raising awareness about the problems.

Hedefler

- Students;
- Students are aware of the problems we have experienced during the pandemic period
- Developing students' skills to protect their mental and physical health
- Increasing the environmental awareness of students
- Increasing interaction within the family
- Gaining skills in the use of Information and Communication Technologies
- Acquiring presentation and self-expression skills
- Improving language skills

Çalışma Süreci

Volunteer students will be allowed to participate in the project and it is planned to hold meetings every month using zoom regularly throughout the project. In the project, all partners have been assigned equally and the task sharing and timetable will be clearly indicated in the project. Monthly activities will be held with the students on the health problems, social problems and environmental problems they experienced during the pandemic.

15th February-15th March Health Problems

15th March-15th April Environmental problems

15th April-15th May Social Problems

The project will be evaluated by applying pre-test and post-test to students and teachers. During the project, dissemination activities will be carried out by using school websites, eba and blog pages.

Beklenen Sonuçlar

At the end of the project, a blog page will be created and it is aimed to reach more masses by sharing via school web addresses and eba. By creating a Facebook fan page, it will also be made widespread on the social media. Collaborative e-journal work will be carried out by improving students' digital skills.
